Interested in technology operations, mapping systems, and data-driven solutions.

Education

RMD Sinhgad School of Engineering, Pune

B.E. in Computer Engineering | CGPA: 8.69/10

MET Bhujbal Knowledge City, Nashik

Diploma in Computer Engineering | 86.69%

Technical Skills

Languages: Java, Python, JavaScript

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

Tools & Platforms: AWS EC2, Docker, Git, GitHub, Linux, Postman

Core Concepts: OOP, DBMS, SDLC, Problem Solving, Troubleshooting

Experience

Frontend Developer Intern | Coding Savvy

- Built responsive React components and improved application usability.
- Integrated REST APIs and resolved frontend integration issues.
- Collaborated with team members using Git and Agile workflows.
- Contributed to reliable and scalable web application development.

Projects

ResumeSmart AI Agent

React.js, Node.js, PostgreSQL, AI APIs

- Built AI-powered resume analysis platform with automated workflows.
- Developed REST APIs and responsive dashboards for user interaction.
- Deployed application using Docker and AWS EC2.

TalentFlow ATS & CRM Platform

React.js, TypeScript, Node.js, MongoDB

- Built recruitment CRM platform with role-based workflows.
- Managed candidates, clients, and hiring pipelines in centralized dashboard.
- Implemented secure authentication and API integrations.

PulseHR Employee Leave Management System

React.js, Node.js, PostgreSQL

- Developed leave approval system with employee and admin dashboards.
- Integrated REST APIs and optimized workflow management.
- Implemented secure role-based access control for users.

Certifications

- Java Programming – NPTEL
- Operating Systems – NPTEL
- Enterprise Grade Artificial Intelligence – IBM
